## DESIDERATA

Go placidly amid the noise and haste, and remember what peace there may be in silence.

As far as possible without surrender be on good terms with all persons.

Speak your truth quietly and clearly; and listen to others, even the dull and ignorant; they too have their story.

Avoid loud and aggressive persons; they are vexations to the spirit.

If you compare yourself with others, you may become vain and bitter; for always there will be greater and lesser persons than yourself.

Enjoy your achievements as well as your plans.

Keep interested in your own career, however, humble; it is a real possession in the changing fortunes of time.

Exercise caution in your business affairs; for the world is full of trickery.

But let this not blind you to what virtue there is; many persons strive for high ideals; and everywhere life is full of heroism.

Be yourself.

Especially, do not feign affection.

Neither be cynical about love; for in the face of all aridity and disenchantment it is perennial as the grass.

Take kindly the counsel of the years, gracefully surrendering the things of youth.

Nurture strength of spirit to shield you in sudden misfortune.

But do not distress yourself with imaginings.

Many fears are born of fatigue and loneliness.

Beyond a wholesome discipline, be gentle with yourself.

You are a child of the universe, no less than the trees and the stars; you have a right to be here.

And whether or not it is clear to you, no doubt the universe is unfolding as it should.

Therefore be at peace with God, whatever you conceive Him to be, and whatever your labors and aspirations, in the noisy confusion of life keep peace with your soul.

With all its sham, drudgery and broken dreams it is still a beautiful world.

Be cheerful.

Strive to be happy.

Enrico Fermi High School is a functional memorial to Fermi for his infinite contributions to the educational growth of people all over the world . . .

... Fermi High contributes to expanding the educational horizons of its students through its outstanding facilities.

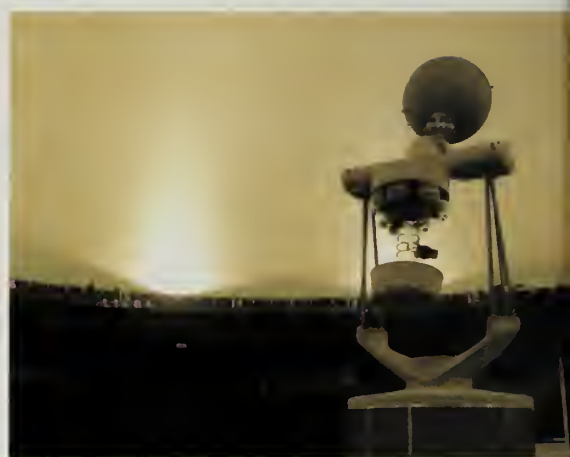

During three years of high school a student must make many important decisions. Fermi High's exceptional guidance department aids students in this task every year. Counselors devise countless programs of study suited for an individual's needs, abilities, goals, and desires.

Aspiring students of the performing arts at Enrico Fermi High take advantage of excellent facilities. Students have the option of joining the stage band, the marching band, or the jazz ensemble. The concert choir and mixed chorus also allow prospective vocalists to gain experience in state wide competitions. Finally, a large, spacious auditorium is available for concert programs as well as annual theatre productions.

The Physical Education Department provides the essential balance to the student's overall program. The four station gymnasium provides space for such varied activities as volleyball, racquetball, and basketball. The heated swimming pool and adequate locker facilities are utilized effectively by the Fermi swimming teams, the gym classes, and the town swimming team. Many classes and teams take advantage of the two weight rooms available in the gym wing. Outdoors, the facilities are comprised of a soccer field, a football field, tennis courts, two baseball diamonds, a track, and an area for field hockey.

Another notable attribute of Fermi High School is its varied academic program which provides students with a comprehensive background. The Mathematics Department offers surveying and computer courses that prepare students for the growing field of data processing. The History

Department features relevant courses, such as Political Issues and American Studies as well as World Civilization and Human Behavior.

Recently, the English Department implemented a newly revised curriculum which included the purchasing of new textbooks. Foreign Languages included in the Fermi curriculum are French, Spanish, Italian, German, and Latin. The tri-level Fermi library complements these programs. It offers students a place to further advance the knowledge and concepts presented in the classroom.

Available in the library are many books, periodicals, and supportive audio visual materials and equipment.

In addition, Fermi has an excellent Science Department. Its nine laboratories and green house, along with a planetarium used systemwide gives students many opportunities for scientific study. Students are encouraged to use the various pieces of equipment and laboratory facilities.

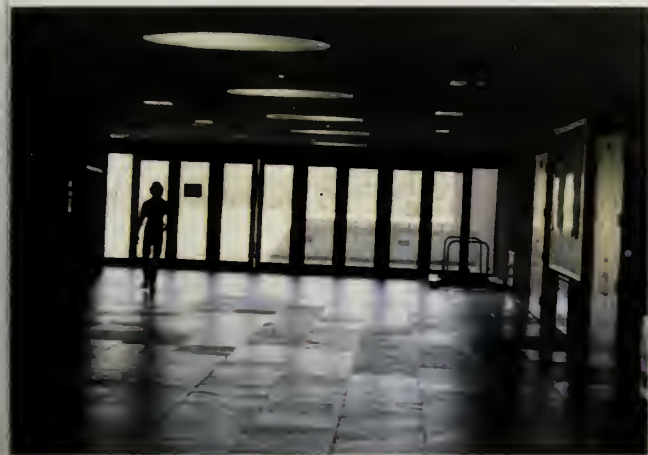

There are also many vocationally oriented programs at Fermi. The Art Department provides courses for fine arts students with concentrations in painting, drawing, and design. For any student interested in the business world, there are courses such as typing, accounting, stenography, and office procedures, offered by the Business Department.

Home Economics, Industrial Education, Food Service, and Auto Mechanic programs are also available to meet the needs of vocational students.

Over the past ten years Fermi High has offered challenges and opportunities to any students willing to explore them. The superior facilities, programs, and teachers have helped all students to become self-directed persons capable of achieving personal goals while also serving the good of society.

# DEDICATION

"You give little when you give of your possessions. It is when you give of yourself that you truly give."

— Kahlil Gibran

"It is good to be a seeker, but sooner or later you have to be a finder and then it is well to give what you have found, a gift to the world for whoever will accept it."

— Jonathan Livingston Seagull

We, the class of 1981, dedicate this yearbook to Miss Mary Ann Fonseca, who with unwavering commitment has earned the respect of the students and faculty of Enrico Fermi High. Our class is proud to acclaim such an outstanding candidate to receive this honor.

As Chairperson of the English Department, Miss Fonseca has maintained a superior program of studies and has demanded academic excellence in its implementation. One notable feature of this program is her work in the sphere of Critical Writing, an invaluable aid to college bound students.

Involved and versatile, Miss Fonseca has covered a wide scope of activities as an advisor to the Traces Yearbook Staff, the Senior Variety Show, the Valedictorian and Salutatorian, and the Varsity and Junior Varsity Cheerleaders. She has also served as a judge in the FBLA State Speaking Competition, a coordinator of Homecoming Weekend, and a chaperone at various school functions. She has proved to be an indispensable and integral part of Enrico Fermi High School.

With her wit, wisdom and enthusiasm, Miss Fonseca has instilled a thirst for knowledge in all who have been enriched by her acquaintance. We must respect her as a teacher and as an advisor — we choose to respect her as a person.

# FACULTY AND ADMINISTRATION

In bidding farewell to the class of 1981, I cannot help but recall a quote from Kahlil Gibran;

"No man can reveal to you aught but that which already lies half asleep in the dawning of your knowledge. The teacher who walks in the shadow of the temple, among his followers, gives not of his wisdom, but rather of his faith and his lovingness. If he is, indeed, wise, he does not bid you enter the house of his wisdom, but rather leads you to the threshold of your own mind . . . For the vision of one man lends not its wings to another man."

It is my sincere hope that we have helped awaken your vision, your faith in yourself and your quest for knowledge. If we indeed "have led you to the threshold of your own mind," we have succeeded in giving you a portion of the legacy we endeavor to give to all the students of Fermi High.

At this time of commencement, or "beginning" of one of the many crossroads in your life, I encourage each of you to keep alive the memories from Fermi High School, to reach for new adventures and to take your place in our challenging society.

On behalf of the administration and staff I wish you a happy, healthy and successful future.

Sincerely,

*Mario A. Gentile*

5. Matthias Moeller is Fermi's foreign exchange student.

We are now upon the threshold of graduation. Although we are happy, we are also anxious about our future. As sophomores we were eager to become a part of Fermi school life. As seniors we are reluctant to leave, but eager to go on and realize our potential. Our education at Fermi has helped us to grow and mature into young women and men who must go on to become responsible citizens.

To continue to succeed, we must use the knowledge and skills we have acquired with the help of faculty members, guidance counselors, administrators and our fellow students. We must also retain the spirit of involvement which characterized our class.

We are, and have been a class of spirited individualists. But our individuality has not interfered with our ability to work together as a class to achieve our goals. Our involvement with class floats, prom committees, and the magazine drive has proven that individuals can succeed through cooperation. This individuality will continue as each of us chooses his or her own path and way of life.

Only an echo of the spirit and enthusiasm of the Class of 1981 will linger in the halls, for we will take these qualities with us and use them to carve our future. As we do so, Enrico Fermi High School will have reason to be proud of its very best class.

# FOOTBALL

As of this writing, our season is not over. We just claimed a great victory by beating Conrad High School with a score of 7-6. We knocked them out of first place and our boys played a great game! The defensive team was superb and the offense team excelled!

This great victory should give us the added momentum to finish the season as a "WINNER" with Hall High School and Enfield High's Turkey Day Game remaining.

The leadership of captains Sal Vella, Jim Tarnowicz, Mark McGuire, and Scott Morgan proved to be of great value on as well as off the field.

The coaching staff is very proud of our team. It has been a great honor to have coached the 1980 team.

# SOCCER

All of us experience regard in a slightly different way — some of us in terms of memories. This season has been, for me, the most memorable of all.

Completing the season with a record of four wins and eleven losses may not seem like much to boast about, but it is. Out of the eleven losses, eight could very easily have been wins. But our season went beyond that — we had a feeling of togetherness, friendship, and enjoyment. All of this is a result of sharing with one another; an experience which will stay with us the rest of our lives. It is this memory for which I thank the 1980 soccer team for allowing me to share.

## GIRLS SWIMMING

Our team received strong leadership this year from tri-captains Paula Boulanger, Kay Dugan, and Kara Welch. Paula's strongest events were the 50 and 100 yard freestyle. She also swam the relays and individual medley. Kara was the team's leading backstroker for three years and this year performed admirably in the diving. Kay received the Outstanding Swimmer Award as a junior and this year was selected for the Most Valuable Swimmer Award. Kay leaves Fermi as the school record holder for the 50, 100, 200, and 500 yard freestyle events.

# FIELD HOCKEY

Once again, the field hockey record of 3-8-3 is not a true indicator of the season. This talented team once again had the potential of a far better season, but the competition of the CCIL continued to be strong. Led by senior captain Gretchen Pieper, the team never failed to provide the opposition with a well-played and aggressive game.

The Junior Varsity team had a most successful 6-6 season, providing the opportunity to gain invaluable experience that should help to strengthen the Varsity squad next year. Junior captain Barb Marion did a fine job of providing leadership upon the field.

Both squads are to be commended for their continual display of superior sportmanship, determination and hard work. I know the returning members will put to use the knowledge gained from this year.

We wish the seniors well with their future plans. You may be gone, but you will not be forgotten.

# VOLLEYBALL

For the fourth consecutive year, the girls' Varsity Volleyball Team has surprised the entire CCIL with outstanding effort. Captains Diane Newton and Terry Henry, both three year letter holders, led the team with great skill and ability. Juniors Laurie Shewokis and Lynn Smith actively supported the team's progress against the toughest CCIL schools.

The Junior Varsity Team had 10 strong players. The starting line up did a good job and the team was exciting and pleasurable to work along side of.

Congratulations to a fine group of girls! I enjoyed working with you during those 2 months and I look forward to working with you next year.

# CROSS COUNTRY

"The heights of great men reached and kept were not attained by sudden flight, but they, while their companions slept, were toiling upward in the night."

Longfellow

This year's Cross Country Team was not a sleeper. They worked very hard as can be indicated by the setting of a new team record for our course and by the most wins a Fermi team has accumulated this fall. It was often hard, tiresome, and sometimes monotonous, but the team had a yearning to improve and succeed.

Our Captains, Joe Swiatek, Tim Wingen and Tim Moriarty, did a great job. The team will miss them next year, but will hopefully follow their examples.

# CHEERLEADING

The Fermi Varsity Cheerleaders once again attended the International Cheerleading Clinic at the University of Connecticut. This year's squad brought back the highest award that any Fermi squad ever achieved. The cheerleaders placed second out of twenty-eight participating teams in the Grand Champion Competition. They were also awarded ribbons in cheering skills and cheer execution. An award for excellence as well as a certificate for the most spirited squad was also received.

This year's varsity cheerleaders were led by captains Patty Zdebski and Karen Coffey. They became an auxiliary team to Fermi's Marching Band and did half-time shows at football games and participated in band competitions.

The Junior Varsity Cheerleaders also had a very good season. They were awarded two ribbons for their performance at the New England Cheerleading Association Clinic. They also introduced a five year old mascot to their squad.

Both the Varsity and Junior Varsity Cheerleaders have been outstanding. They are to be commended.

# BASKETBALL

The 1980-81 Basketball Team was led by co-captains Bill Fotos and Tim Wingen. Other seniors on the team were Todd Bergstrom and Geary Mills. After losing the starting five players from last year's team, the Falcons will have to work extra hard to repeat last year's winning season.

At the time of this writing Tim Wingen was leading the team in assists and Bill Fotos in rebounds per game. Todd Bergstrom recently broke into the starting line-up to spark the young Falcons.

Outstanding Juniors Bill Provencher, Tom Timion, and Jim Slattery should help the senior contingent reach its goal. The team also has its eyes on another berth in the annual state tournament.

## GIRLS' BASKETBALL

The CCIL Girls' Basket League appears to be very strong. This year's team, although understaffed, plans to hold its own in the league.

The team is captained by Senior Gretchen Pieper. She has set a fine example for a young team and for the other Seniors Kara Welch and Chris Leahy.

The team and I wish the seniors the best of luck for an unforgettable year.

# WRESTLING

The Wrestling Falcons of Fermi completed their second consecutive successful season under the hard work and dedication exhibited by captains Mark Landry, Bill Johnson, and Jim Olson. The whole season can be best described in the following:

"There is no mat space for malcontents or discontents. One must neither celebrate insanely when he wins nor sulk when he loses. He accepts victory professionally, humbly; he hates defeat, but makes no poor display of it. More enduringly than any other sport, wrestling teaches self control and pride. Some have wrestled without great skill; none have wrestled without pride."

# HOCKEY

The 1980-81 Falcon hockey season could be called a year of frustration. Our young team lost many close games by only one or two goals. The team played very well and the nine sophomores and six juniors offered tremendous potential for the season.

This season's sophomore goaltender, Sean Pagnam, performed superbly. Also, Juniors Ed Johnson, Bob Berowski, Mitch Kraucunas and Jim Gannuscio demonstrated poise and strength in their positions.

The Tri-captains Dave Celino, Steve LaBreck and Mike Riley, along with senior Duncan Campbell, displayed fine leadership qualities. Together they also executed brilliant plays. Seniors Fred Riley and Dave Brooks contributed to team morale and played excellently.

The Fermi Hockey Team had a fine season. The championship qualities of teamwork, determination, pride and discipline were evident in this team.

**J.R. for President**

**1980-1981** were years of advancement in many respects. Politically, many changes occurred. An independent candidate, John Anderson, provided an additional alternative to the two party system. However, he was unable to overcome the landslide victory of Republican nominee Ronald Reagan. Just as our country was unified in the election of our new president, we were again unified in the vigil of the hostage crisis. Yellow ribbons became symbols of patriotism and renewed spirit for our country. This spirit continued throughout the jubilant homecoming celebration.

Amateur sports in the U.S. advanced significantly. In general, many medals were received during the Lake Placid Olympiad competition. The unbelievable highlight of this event was Eric Heiden's achievement of five gold medals in speedskating. Also, the dramatic victory of the U.S. Hockey Team will never be forgotten.

Technological advancements have become part of our daily life through the development and distribution of computerized devices. The most evident example of this is the increasing popularity of computerized games. In addition to this, scientific exploration of neighboring planets has increased our knowledge of outer space.

This advancing knowledge will also contribute to the spectrum of our entertainment through sports, movies, television, and concerts. These progressions have made life more comfortable, more exciting, and more entertaining for our nation and for the entire world.

## A YEAR OF ACCEPTANCE

And so we began our high school years. We faced the challenge of being accepted by the upperclassmen, and we succeeded in becoming an active part of the student body. To be accepted, we had to be followers, yet even in our growth, we were leaders. President Harry Captain, aided by his fellow officers, effectively organized our activities.

The Sophomore Initiation Dance "welcomed" us and we were hesitant, yet eager in our participation. Later in the year, our class sponsored the Toga Dance. The majority of toga-clad participants were spirited sophomores who generated enthusiasm throughout the evening. The highlight of our sophomore year was our first place victory in the Homecoming Day float competition. The Sophomore class' hard work and ingenuity provided a significant challenge to upperclassmen.

## A YEAR OF ACCOMPLISHMENT

As juniors, we were energetically involved in our school activities. Once again, our class was led by President Harry Captain. The class of 1981 presided at this year's Sophomore Initiation Dance. This day brought back many memories of the previous year's chicanery. Also, in the Homecoming Day float competition, we achieved a controversial third place. Our victory as sophomores made this placement even more disappointing. According to tradition, the junior class organized and directed the 1980 Senior Farewell Prom, "Always and Forever". A gratifying time was had by all, and we hope that the memories of that evening will remain with the class of 1980.

In April, a propitious car wash was sponsored by the junior class. This endeavor grossed over one hundred dollars which was added to the treasury of the Class of 1981. The memories of these accomplishments and failures proved exemplary to us as seniors. Our accomplishments as juniors will be shining examples for future classes.

## A YEAR OF ANTICIPATION

As seniors, we are filled with anticipation for the future. For many of us, the selection of, application to, and response from various colleges filled much of our time. Others were filled with thoughts of future jobs and careers. For all, it was a year of decision.

Thanksgiving was celebrated with many activities. The food drive, which the school sponsored to benefit the Emergency Food Shelf, was successful. The Super Seniors took first place in this year's can collection competition. Also, prior to the Thanksgiving Day football game, money was collected to form a spirit chain. The proceeds went to the class of 1981 as the senior class once again proved their superiority.

To defray graduation expenses, the senior class undertook several projects. Among these were the magazine drive and the Senior Variety Show. The Senior Variety Show, held in May, was enjoyed by all. This production brought in substantial receipts which were contributed to the treasury of the senior class. During the magazine drive, the entire senior class had the opportunity to sell subscriptions for the benefit of the class as well as for prizes being offered.

The unified efforts of the senior class contributed to the overall prosperity of this concluding high school year.

Our three years at Fermi have been full of happy times which are soon to become thoughtful memories. We know that these memories will be a part of our past as we know that we will always be a part of Fermi's history. We will remember always that **1981** is second to none!

Destiny Is Not A Matter Of Chance,  
It Is A Matter Of Choice;  
It Is Not A Thing To Be Waited For,  
It Is A Thing To Be Achieved.
